

Breast Pump Supplies

Special Needs Feeder *(BRS1092)*

The Special Needs Feeder is designed for babies with facial or oral problems that hamper their ability to maintain adequate suction for feeding. The specially designed valve and silicone feeder adjusts milk flow to suit baby's needs.

Features and Benefits:

- Variable flow rate controlled by feeder and baby
- Sensitive to baby's feeding efforts
- One-way valve prevents flooding
- Mini-Special Needs teat is smaller for smaller babies
- Sterile packaging

Nipple Shields *(BRS 1031-32, BRS1077)*

Available in x-small (16mm), small, and regular (24mm).

Starter Supplemental Nursing System (SNS) *(BRS1046)*

The economical Starter SNS is designed for short-term disposable use. In addition to being used to give supplements, the Starter SNS also helps mothers initiate feeding at the breast.

Features and Benefits

- A disposable system ideal for short-term (24-hour) supplemental feedings at the breast
- Quick Clip™ attaches to mom's clothing for maximum convenience
- Sterile packaging for immediate use out of the package

Supplemental Nursing System *(BRS1047)*

First developed to help adoptive mothers induce lactation by feeding their babies at the breast to trigger hormonal changes that enhance milk production. This adjustable flow-rate system can also be used to give supplements while keeping baby on the breast.

Features and Benefits:

- Ideal for long-term supplemental feedings at the breast
- A breastfeeding assistance kit for moms and babies facing special challenges, such as inducing lactation or suck problems
- Adjustable flow-rate system
- Color-coded tubes for different feed rates
- Neck strap for maximum convenience
- Sterile packaging allowing for immediate use out of the package

Quick Clean Micro-Steam Bags 5-pack *(BRS1067)*

Great for breast pumps, breast shields, accessories, breast milk bottles, nipples, pacifiers and cups.

Features and Benefits:

- Thoroughly disinfects in about 3 minutes.
- Steam cleaning eliminates 99.9% of most common bacteria and germs
- Requires just a microwave and water
- Each bag can be used up to 20 times
- Ideal for storing pump parts between pumping sessions

Pump and Save Breast Milk Storage Bags 20-pack *(BRS1008)*

Unique design - pump directly into bag for fast, easy breast milk storage.

Features and Benefits

- Compatible with Medela breast pumps (except Freestyle®)
- Double-walled for safe and long-term breast milk storage.
- No-leak, easy-to-close zipper top.
- No-spill, stand-up bottom.

Tendercare Lanolin Samplers .3oz (BRS1088)

Advanced Nipple Therapy.

Features and Benefits:

- Soothing relief for dry, sore and tender nipples
 - 100% safe for mom and baby
 - Glides on smoothly and gently - no-mess application
 - Preferred by moms over other formulas
-

Membranes (BRS1068, BRS1015)

Extra membranes for Medela breast pumps.

Tender Care™ Hydrogel Pads (BRS1100)

Advanced Nipple Therapy.

Features and Benefits:

- Cools on contact - instant relief for sore nipples
 - Contoured shape for comfortable fit
 - Reusable for up to 24 hours
-

9V Vehicle Lighter Adapter (BRS1095)

A convenient alternative power option for Pump in Style Breast Pumps manufactured in January 2008 or later.

100% Cotton Washable Nursing Pads *(BRS1003)*

Features and Benefits:

- Natural fibers promote air flow for healthy skin
- No-shift design keeps pads in place
- Includes laundry bag for easy washing.

What's Included:

- 4 bra pads
- 1 laundry bag

SoftShells™ for Inverted Nipples *(BRS1038)*

SoftShells™ for Sore Nipples *(BRS1039)*

Medela SoftShells help solve some of the most common problems faced by breastfeeding women - nipple soreness, engorgement and flat or inverted nipples. SoftShells are comfortable to wear while alleviating these conditions. Flexible silicone backs apply a firm but gentle touch to sensitive breast tissue. Low-profile design gives the bustline a natural appearance.

Features and Benefits:

- Available for sore nipples (large opening) or flat or inverted nipples (small opening)
- Protects nipples from further irritation
- Superior comfort with soft, flexible backs
- More flattering appearance under clothes than other shells

What's Included:

- 2 shells
- 2 backs
- 4 washable foam inserts
- Instruction Manual

Breast Pump in Style Tubing *(BRS1026)*

42" PVC tubing set. Each tube features pale yellow adapter and one soft end.

PersonalFit™ Breast Shields (2/pack) *(BRS1056, 57, 58, 79,)*

Once you have selected a breast pump that best meets your needs, you will need a proper fitting breast shield. A breast shield fits directly over your nipple and attaches to the pump kit, which is connected to the pump with tubing. The breast pump creates a vacuum which gently draws your nipple into the breast shield, removing milk from your breast. A correctly sized breast shield provides comfort while you pump and is proven to maximize milk flow. Medela has developed the PersonalFit™ Breast shield System designed to ensure moms who pump can find comfortable, well-fitted breast shields. Available in sizes small, medium, large and x-large.
